Report of Add-On Programme

Name of Add-On Programme:	Hands on training & practical applications on Molecular Insights for Drug Discovery: Exploring Modelling and QSAR Techniques
Name of Coordinator	Dr A B Roge
Schedule of Activity	17-08 To 30-11-2023 Tuesday, Thursday (10am-12noon)
Class	M Pharm-I, M Pharm-II
Duration	32 Hrs
Aim/Objective: This program is designed to provide an in-depth understanding and hands-on experience with the application of molecular insights in drug discovery, with a particular focus on computational techniques like molecular modeling and Quantitative Structure-Activity Relationship (QSAR) methods.	
Learning Outcomes: On successful completion of this course students will able to; <ul style="list-style-type: none">• Gain hands-on experience with molecular modeling and QSAR tools.• Understand how to build and evaluate QSAR models to predict compound activity.• Understand how molecular insights can be leveraged for effective drug discovery.• Enhance your ability to interpret computational results in the context of experimental data.	
Course Contents: <ul style="list-style-type: none">• Introduction to Drug Discovery.• Molecular Modeling Techniques.• QSAR (Quantitative Structure-Activity Relationship).• Data Analysis and Interpretation.• Hands-On Sessions.• Integration of Modelling and QSAR in Drug Discovery Workflow.
